

## Technical Data Sheet

### Food-Tek Foodcom Oil Series

**A long life, food grade, synthetic, non toxic, wear resistant, compressor oil with low residue for the food, beverage pharmaceutical and other clean industries**

**Foodcom Oil** is a premium quality long life, food grade, synthetic compressor oil designed for all types of compressor units. **Foodcom Oil** contains a special additive package that significantly extends servicing and relubrication intervals. **Foodcom Oil** is available in ISO VG 32, 46, 68, and 100

#### **Applications: -**

Industrial: Rotary and reciprocating Compressors

#### **Features and Benefits: -**

- |                                     |  |
|-------------------------------------|--|
| ➤ NSF H1 registered                 | Safe to use where incidental food contact may occur. |
| ➤ Synthetic base fluid              | Long life, extended drain intervals                  |
| ➤ Low Coefficient of friction       | Reduces wear, increases lubricity                    |
| ➤ High Viscosity Index              | retains viscosity at high temperatures               |
| ➤ Oxidation and Corrosion inhibited | Reduces sludge, varnishing and residue               |
| ➤ Low Foaming                       | reduces risk of oil carry over into air system       |

#### **Method of Application: -**

**Foodcom Oil** is suitable for all compressor types. For optimum performance, drain compressor of previous lubricant, prior to filling with **Foodcom Oil**

Part Numbers: 50510, 50511, 50512, 51513
