

Technical Data Sheet

Food-Tek Translube Gear Oil Series

A long life, food grade, synthetic, wear resistant, high load gear oil for the food, beverage pharmaceutical and other clean industries

Translube Gear Oil is a premium quality long life, food grade, synthetic based gear oil for all gearbox types, including extreme temperatures. The synthetic base fluid helps to increase life of the product and to significantly extend the oil change interval. **Translube Gear Oil** is designed to extend relubrication and oil change intervals with its unique additive package which also gives it excellent demulsibility properties. This makes the Translube 150 ideal for homogenisers that may have a water ingress problem.

Applications: -

Industrial: Gearboxes, chains and drives, including conveyor chains in the food industry

Features and Benefits: -

| <ul style="list-style-type: none"> ➤ NSF H1 registered ➤ Synthetic base fluid ➤ Excellent demulsibility ➤ High Viscosity Index ➤ Oxidation and Corrosion inhibited ➤ High adhesion | <p>Safe to use where incidental food contact may occur.</p> <p>Long life, extended drain intervals</p> <p>Allows quick and easy draining of excess water in equipment, extending service life</p> <p>retains viscosity at high temperatures</p> <p>Reduces sludge and residue</p> <p>protects gears even at start up</p> |
|--|--|

Method of Application: -

Translube Gear Oil is suitable for gearboxes and reduction units please ensure that the gearbox manufacturers' lubricant rating corresponds to using the correct ISO VG grade oil. For optimum performance, drain gearbox of previous lubricant and flush with **Food-Tek Translube Gear Oil** before final filling.
