

Milwaukee Power Tools (MILC12PC0)

C12 PC-0 Compact Pipe Cutter 12V Bare Unit

The Milwaukee C12 PC Pipe Cutter has a high-performance 500 rpm motor that cuts 12mm copper pipe in less than 3 seconds. It has an all-metal sealed front end for water protection that is rust and corrosion resistant. The pipe cutter has an auto locking cut mechanism that cuts installed copper tubing with as little as 37mm clearance. Auto adjusting jaws automatically adjust to the pipe size, and a built-in LED light illuminates the work surface. The C12 PC features REDLINK overload protection electronics to deliver excellent system durability. A fuel gauge displays the remaining battery charge state. Specifications: Voltage: 12 Volt. Copper tube capacity: 12 - 28mm. Cutting speed: 500 rpm. Minimum space for tube cutting: 80mm. Length: 360mm. Weight: 1.5kg. Batteries and charger NOT included.

Voltage

12V
