

Milwaukee Power Tools (MILM12JS0)

M12 JS-0 Sub Compact Jigsaw 12V Bare Unit

The Milwaukee M12 JS Sub Compact Jigsaw has a hybrid grip design that combines the best features from top grip and barrel grip jigsaw designs to provide superior cut control and balance. It produces minimal vibration during cutting to ensure a ultra smooth finish. A non-marking shoe, comes as standard, protects work surfaces from scratching. The precision roller guide is positioned close to the work piece to provide control and reduce blade deviation. The compact tool design and intergrated LED improves cut line visibility, even in low levels of light. REDLINK overload electronics deliver excellent durability and electronic variable speed control provides greater flexibility and versatility. It's QUICK-LOK T shank blade clamp allows for secure, tool-free blade and accessory change. Ideal for carpenters, builder, cabinet/countertop installers, plumbers, electricians, and HVAC professionals for making quick cuts in wood, metal, wall tile, or plastics without the hassle of pulling out a cord. Able to perform plunge and bevel cuts. Specification Strokes at No Load: 0-2,800/min. Stroke Length: 19mm. Capacity: Aluminium: 15mm, Wood: 40mm. Bevel Capacity: 45°. Weight: 1.8kg (Without Battery). The Milwaukee M12 JS-0 Sub Compact Jigsaw is supplied as a Bare Unit, NO battery or charger supplied.
