

Bolle Safety (BOLVOLTV)

Volt Variable Electronic Welding Helmet

The Bollé Volt Welding Helmet is suitable for welding MIG / MAG, TIG and grinding. It is fitted with a variable shade filter (4/9-13) and two independent sensors with a 0.10 millisecond reaction time for optimal safety. For comfort the helmet features an adjustable 5 position headband. Conforms to EN 166/175/379 1BT.
