

Scan (SCAPPEGMV)

# Moulded Valved Safety Goggles

The Scan Moulded Valved Safety Goggles are lightweight but strong and cover most eye protection requirements. These goggles will withstand medium energy, high-speed impacts of up to 120m/s (270mph). They have a blue tinted PVC frame with a clear impact resistant lens that will protect against liquid splash, debris and flying particles. The valve caps are removable to allow use as either indirect or direct vent goggles. The adjustable elastic headband is attached with a ball joint. Conforms to EN 166:1B.
