

Technical Data Sheet

Bondloc B7455 Cyanoacrylate Activator Aerosol

PRODUCT DESCRIPTION

B7455 activator is used for the fast curing of cyanoacrylates, depositing a correct balance of neutralising ions on the surface, stimulating attraction for the adhesive and preparing the surface for bonding.

APPLICATIONS

B7455 is primarily designed as a plastics compatible accelerator or for post curing outside the bond line. B7455 prevents absorption of the lower viscosity cyanoacrylates into porous items and also helps bridge gaps which decreases polymerisation time.

USEFUL NOTES

Activator can be used to speed cure time by brushing or spraying onto the surface, applying drop wise, the superglue and then over spraying to cure fillets such as on a wire tracking jobs.

PROPERTIES

Fast drying activator grades are a blend of flammable solvents. Care must be taken to avoid naked flames. B7455 has the ability to reduce odours and blooming but excessive deposits will increase blooming due to rapid polymerisation.

INSTRUCTIONS FOR USE

Ensure that surfaces to be bonded are clean and free from grease, dirt, dust and any other contamination.

PROCEDURE FOR APPLICATION

Product is normally hand applied by brush from the bottle, or sprayed by pump action to allow a 'mist' to form on the bond surface.

TECHNICAL FEATURES

Appearance	Clear Liquid
Flash Point	< -40°C
Shelf life	12 months unopened
Specific Gravity	0.87g/cm ³

CURED PERFORMANCE

Performance is dependent on the adhesive viscosity and choice of activator. Low viscosity being faster to set and higher viscosity <10 seconds, gels dependent on techniques <30 seconds. There is also another grade of B7455 which is a super-fast grade usually <10 seconds.

STORAGE

Store in a cool area out of direct sunlight. See MSDS for Safety instructions on the flammability. Shelf life: 12 months @ 20°C in unopened bottle

HEALTH & SAFETY

This technical information sheet does not constitute a Safety Data Sheet (SDS). Before using this product ensure you have read and fully understood this products SDS.

PACKAGING FORMAT

Cans.....200ml, 400ml
